

Born without arms, not without attitude!

Nicky Abdinor is an expert on doing *MORE* with less. She is an agent of change who will leave your audience believing in their abilities. They'll learn to focus on what they *CAN* do!

Making Disability WORK in the Workplace

In South Africa, we have some of the most progressive laws advocating the employment of people with disabilities. Attitudinal barriers create some of the biggest challenges with the recruitment, integration and advancement of people with disabilities in the workforce.

As a Clinical Psychologist with a physical disability, Nicky is the ideal speaker to address disability awareness in your company or organisation. Nicky has expert knowledge on employee wellness and the impact of “hidden” disabilities in the workplace.

Nicky's presentation addresses the barriers to inclusion, disability etiquette, the disclosure of disability in the workplace and reasonable accommodations. She has a witty sense of humour and natural speaking ability that not only keeps the attention of the audience, but also spurs them to action!
